

What Are Custom Modules?

This e-Learning center is a resource from PERC that enables users to create customized modules to share with your customers and community.

Custom modules add an opening and closing page around the e-learning module you select. These pages can be personalized with your logo, company contact information, opening and closing messages, and custom links.

Use your personalized modules on your website, at tradeshow, or as a way for customers to earn rewards upon completion.

[LOG IN](#)

How It Works

- 1 Add your logo and company information.
- 2 Add a message in the opening and closing pages.
- 3 Place the generated code into your website.

YOU'RE DONE!
